2019 - 2023

Administration
Zespół Szkół Zawodowych
Odonów
2016 - 2018

Hobbies

Books   Running   DIY

I enjoy reading books, especially Stephen King's horror novels and psychological books.

Running is my passion, and this year I've set myself a challenge of completing 100 runs.

Additionally, I participate in Runmageddon events, and in the future, I want to prepare myself for a triathlon.

I am a person who enjoys DIY and doing everything myself, like a handyman.

Technical skills

- CSS / SCSS
- Tailwind / Shadcn / MUI
- JavaScript / Typescript
- React / NextJS / Astro
- SQL / MYSQL
- Drizzle ORM
- tRPC / gRPC / Protobufs
- Storyblok / Payload CMS

Soft skills

- Ambitious
- Goal-oriented
- Analytical thinking
- Enjoys helping others

Certification

- Sekurak Cyberstarter

Languages

- English - B2
- Polish - native

Latest project

The website cezarygutowski.pl presents a fresh solution developed primarily with Next.js, Tailwind CSS, and PayloadCMS, chosen for its flexibility and custom plugin support. The entire e-commerce logic is powered by Bitsnap.

Coding Experience

Front-End Engineer
GoFunlo / Period / 2025 - June 2025
My role involved mitigating extensive technical debt, migrating the entire platform, and comprehensively restructuring it for SEO optimization. I excelled in all assigned objectives and possess positive references.

Front-End Engineer / Full-Stack Developer
Bitsnap / Period / 2024 - present
Developing and maintaining bitsnap.pl, leveraging a powerful stack including Typescript, React, Astro, Tailwind, Drizzle, Protobufs and Golang. My expertise extends to writing interfaces focused on fast, elegant and accessible user experiences. Integrating these interfaces with backend systems, developing APIs, and implementing various integrations.

Front-End Developer
Studly / Period / 2023 - 2024
Designed and architected web applications, including e-commerce stores, utilizing technologies such as React, NextJS, tRPC, Storyblok CMS and Tailwind. Primarily focused on front-end development and integrating it with CMS, implementing pixel-perfect layouts and user flows.

Study experience

During my studies, I worked with various programming languages (Java, Python, PHP, C++). I also had the opportunity to participate in the creation of an e-commerce store built on the full-stack SvelteKit framework, and my engineering thesis focused on web application development using the Svelte framework.
